

# Imagine cycling

in Greater Manchester

Just imagine! It's 2020 and many more people are cycling, safely, and cycling more often. But how did we manage to achieve that? Greater Manchester Cycling Campaign is 22 years old. We've decided to stop for some refreshment, by holding an Appreciative Inquiry\* in May. Assisted by two experienced AI practitioners, we will use the power of our imaginations to map our route to 2020 (and cycling heaven). If you are positive about trying to turn your cycling dreams into reality, please join in.
